MORE INFORMATION

Solid pine slats

Feel supported and comfortable all night long with this bed's inbuilt solid pine slats. Pine slats are flexible enough to allow for movement and adjustment while maintaining a firm support. In double or larger beds we add two separate sets of slats for either side. This allows for one side to adjust without affecting the whole bed, which means even if your partner is tossing and turning, you won't be!

Center support rail

This bed is fitted with a center support rail which not only adds a world of difference to your comfort, but also helps prevent damage to your bed and mattress. Without a center support rail you risk your bed sagging in the middle over time which warps both your mattress and your bed's slats. No thank you!

Plantation grown acacia timber

Acacia timber has been used for millions of years due to its beautiful finish, strength, resistance to wear-and-tear, and ease to care for. Plus, by choosing a product with plantation grown timber, you are supporting sustainable plantation harvesting, a process that yields high quality timber without harming the earth - good on you!
