Do you sometimes overheat in the middle of the night? The Sensei Polar Gel Pillow is here to cool you back down while providing next level support and comfort.

MORE INFORMATION

Mlily brand product

Mlily is a long time trusted name in the world of mattresses and bedding and for good reason! With decades of experience and innovation, Mlily have continually provided the most advanced, innovative, and comfortable products on the market — and we just can't wait to have you experience them!

Gel layer for temperature control

Do you get a little too hot at night as you sleep? Overheating is an all too common bedtime issue, so that's why Mlily have infused this product with a cool gel layer with exceptional cooling properties that will keep you a comfortable temperature all night long.

Memory foam for extra support

This pillow/mattress topper is complete with a memory foam layer to help support a healthy alignment of your spine and reduce stress on pressure points — in short: less back pain, more comfy snoozes.
