Plantation grown acacia timber

Acacia timber has been used for millions of years due to its beautiful finish, strength, resistance to wear-and-tear, and ease to care for. Plus, by choosing a product with plantation grown timber, you are supporting sustainable plantation harvesting, a process that yields high quality timber without harming the earth - good on you!

Includes plenty of storage nooks

If you're like us, no storage is ever enough storage! Stash away clutter and keep your room looking lovely with the storage shelves, drawers, nooks, and crannies.

Full extension roller runners

This design is fitted with metal roller runners to ensure that your drawers open smoothly, easily, and without issue - as all drawers should!

Cord management holes

We can all probably agree that tangled cords are the worst. So keep all your cables easily in check with the discrete in-built cord management hole/s in the back of this unit.
